Description

A more relaxed height that allows for openness while still shaping the space. Low Line delivers subtle spatial cues without overpowering.

Cooee Spaces Walls are modular, freestanding partitions designed to shape the way we work, learn, and collaborate. Available in two widths and full or three-quarter heights, these lightweight walls offer layout flexibility—whether you’re creating quiet retreats, team zones, or adaptable open spaces.

The three-quarter height—our Low Line option—offers a more relaxed profile that maintains openness while still shaping the environment. It delivers subtle spatial cues without overpowering the room, making it ideal for informal zones or light-touch division.

Each wall is constructed with an ultra-lightweight core and framed in a proprietary powder-coated aluminium extrusion for strength and stability. The surface is finished in your choice of acoustic PET colors and designs, helping to reduce noise and visual distractions for a more focused environment.

A discreet magnetic cable cubby provides seamless wire management, allowing power to run internally through the wall. The hinged, flush-fitting cover opens effortlessly for easy access and snaps back into place to maintain a clean, uninterrupted profile. It’s a smart integration that supports charging and connectivity—without compromising on aesthetics.

The proprietary aluminium extrusion and feet are available in a selection of powder coat finishes, allowing you to coordinate every detail while maintaining functionality and aesthetic cohesion.

Cooee’s signature Tool Rail enables quick mounting of accessories including whiteboards, shelves, and hooks—empowering users to reconfigure and personalise their space with ease. Corner connectors and end caps extend layout possibilities, making Cooee Spaces Walls a truly versatile system.

From offices to education settings, Cooee defines space with clarity, acoustic performance, and design-forward thinking.
