Description	<p>Brings spatial intent, delivering acoustic comfort, visual calm, and purposeful function without occupying too much floor space. Anchored directly to the wall, this thoughtfully designed pod is ideal for high-traffic areas, corridors, or anywhere a full booth isn't feasible.</p> <p>Available in two depths, the Wall Pod offers flexibility for different user needs. The shallower version is perfect for standing interactions, short pauses, or impromptu conversations, while the deeper option allows users to sit and take a quiet moment, whether for a quick call, focused work, or simply a breather from a busy environment.</p> <p>Framed in proprietary powder-coated aluminium extrusion and finished in your choice of acoustic PET colours, the Wall Pod delivers visual consistency with the broader Cooee Spaces collection. The lightweight core construction ensures strength without heaviness, while the architectural form enhances both acoustics and aesthetics.</p> <p>Like all products in the Cooee range, the Wall Pod balances form and function, creating quiet, defined moments in open-plan spaces, and bringing intent to every inch of the interior.</p>
